It was another very solid day at the wool auction in Napier today. One re-alignment in price did not have any bearing on the rest of the wool sold. Very good styled second shear was chased along, fleece wool was still in hot demand and oddments really stole the show lifting in value to levels unseen for most of this wool season. With the slow down in wool supply, now would be a great time to send your wool into the auction to take advantage of the rise in the market.
