20 Micron	\$13.50	

NC = No Change
 N/A = Not Available

A limited but good offering of Xbd wool saw the market rebound back towards growers favour today. The fine wool market saw a correction reflecting the downward trend occurring in the markets across the Tasman during the last two weeks combined with a higher exchange rate against the green back. The special feature however was the extreme bidding on a line of ultra fine 13.0 micron lot achieving a record price of 10365c/kg clean.
