 N/A = Not Available

The first wool sale of the year saw values improve on the back of limited volumes coming forward for sale. Shearing has been interrupted through wet weather and sale quantities should fill in due course. The NZ dollar has continued its decline against the green back which has further aided buying pressure in the sale room. Xbd price levels now set at levels not seen in recent years and it is hoped the 400c/kg clean price barrier can be exceeded in the coming sales.
